TURN ON RED
LIGHT—WHEN**

Whenever traffic is controlled by traffic control signals exhibiting different colored lights or colored lighted arrows, successively one (1) at a time or in combination, only the colors green, red and yellow shall be used except for special pedestrian signals carrying a word legend, and said lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

1. *Green indication.*
 - a. Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.
 - b. Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.
 - c. Unless otherwise directed by a pedestrian control signal as provided in Section 315.070, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.
2. *Steady yellow indication.*
 - a. Vehicular traffic facing a steady yellow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection.
 - b. Pedestrians facing a steady yellow signal, unless otherwise directed by a pedestrian control signal as provided in Section 315.070, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway.
3. *Steady red indication.*
 - a. Vehicular traffic facing a steady red signal alone shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until a green indication is shown except as provided in paragraph (b) of this Subsection.
 - b. The driver of a vehicle which is stopped as close as practicable at the entrance to the crosswalk on the near side of the intersection or, if none, then at the entrance to the intersection in obedience to a red signal may cautiously enter the intersection to make a right turn but shall yield the right-of-way to pedestrians and other traffic proceeding as

directed by the signal at the intersection, except that the State Highways and Transportation Commission with reference to an intersection involving a State highway, and local authorities with reference to an intersection involving other highways under their

jurisdiction, may prohibit any such right turn against a red signal at any intersection where safety conditions so require, said prohibition shall be effective when a sign is erected at such intersection giving notice thereof.

- c. Unless otherwise directed by a pedestrian control signal as provided in Section 315.070, pedestrians facing a steady red signal alone shall not enter the roadway.
4. In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this Section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking, the stop shall be made at the signal.

SECTION 315.070:**PEDESTRIAN CONTROL SIGNALS**

Whenever special pedestrian control signals exhibiting the words "*Walk*" or "*Don't Walk*" or appropriate symbols are in place, such signals shall indicate as follows:

1. "*WALK*": Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.
2. "*WAIT*" or "*DON'T WALK*": No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his/her crossing on the walk signal shall proceed to a sidewalk or safety zone while the wait signal is showing.

SECTION 315.080:**FLASHING SIGNALS**

Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal, it shall require obedience by vehicular traffic as follows:

1. *Flashing red (stop signal)*. When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked or, if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.
2. *Flashing yellow (caution signal)*. When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

SECTION 315.090:**LANE DIRECTION CONTROL SIGNALS**

When lane direction control signals are placed over the individual lanes of a street or highway, vehicular traffic may travel in any lane over which a green signal is shown but shall not enter or travel in any lane over which a red signal is shown.

SECTION 315.100: DISPLAY OF UNAUTHORIZED SIGNS, SIGNALS OR MARKINGS

No person shall place, maintain or display upon or in view of any highway an unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic control device or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic control device.

SECTION 315.110: INTERFERENCE WITH OFFICIAL TRAFFIC CONTROL DEVICES

No person shall without lawful authority attempt to or in fact alter, deface, injure, knock down or remove any official traffic control device or any inscription, shield or insignia thereon or any other part thereof.

The City Traffic Engineer shall have authority to declare any street or part thereof a play street and to place appropriate signs or devices in the roadway indicating and helping to protect the same.

SECTION 315.130: PLAY STREETS

Whenever authorized signs are erected indicating any street or part thereof as a play street, no person shall drive a vehicle upon any such street or portion thereof except drivers of vehicles having business or whose residences are within such closed area, and then any said driver shall exercise the greatest care in driving upon any such street or portion thereof.

SECTION 315.140: CITY TRAFFIC ENGINEER TO DESIGNATE CROSSWALKS AND ESTABLISH SAFETY ZONES

The City Traffic Engineer is hereby authorized:

1. To designate and maintain, by appropriate devices, marks or lines upon the surface of the roadway, crosswalks at intersections where in his/her opinion there is particular danger to pedestrians crossing the roadway and at such other places as he/she may deem necessary.
2. To establish safety zones of such kind and character and at such places as he/she may deem necessary for the protection of pedestrians.

SECTION 315.150: TRAFFIC LANES

- A. The City Traffic Engineer is hereby authorized to mark traffic lanes upon the roadway of any street or highway where a regular alignment of traffic is necessary.

- B. Where such traffic lanes have been marked, it shall be unlawful for the operator of any vehicle to fail or refuse to keep such vehicle within the boundaries of any such lane except when lawfully passing another vehicle or preparatory to making a lawful turning movement.

CHAPTER 320: SPEED REGULATIONS

SECTION 320.010: STATE SPEED LAWS APPLICABLE

The State traffic laws regulating the speed of vehicles shall be applicable upon all streets within the City, except that the City may by ordinance declare and determine upon the basis of engineering and traffic investigation that certain speed regulations shall be applicable upon specified streets or in certain areas, in which event it shall be unlawful for any person to drive a vehicle at a speed in excess of any speed so declared when signs are in place giving notice thereof.

SECTION 320.020: REGULATION OF SPEED BY TRAFFIC SIGNALS

The City Traffic Engineer is authorized to regulate the timing of traffic signals so as to permit the movement of traffic in an orderly and safe manner at speeds slightly at variance from the speeds otherwise applicable within the district or at intersections and shall erect appropriate signs giving notice thereof.

SECTION 320.030: GENERAL SPEED LIMIT

Except where otherwise provided by signs erected pursuant to duly passed and approved ordinances, no person shall operate a vehicle on any street in the City in excess of twenty (20) miles per hour. (R.O. 2009 §320.030)

SECTION 320.040: SLOW SPEED—REGULATIONS

No person shall drive a motor vehicle at such a slow speed as to impede or block the normal and reasonable movement of traffic, except when reduced speed is necessary for safe operation or in compliance with law. Peace Officers may enforce the provisions of this Section by directions to drivers, and in the event of apparent willful disobedience to this provision and refusal to comply with direction of an officer in accordance herewith, the continued slow operation by a driver is an ordinance violation.

1. *Right turns.* Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway, except where multiple turn lanes have been established.
2. *Left turns on two-way roadways.* At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right-half of the roadway nearest the centerline thereof and by passing to the right of such centerline where it enters the intersection and after entering the intersection the left turn shall be made so as to leave the intersection to the right of the centerline of the roadway being entered. Whenever practicable, the left turn shall be made in that portion of the intersection to the left of the center of the intersection.
3. *Left turns on other than two-way roadways.* At any intersection where traffic is restricted to one (1) direction on one (1) or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle and after entering the intersection the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in such direction upon the roadway being entered, except where multiple turn lanes have been established.
4. *Designated two-way left turn lanes.* Where a special lane for making left turns by drivers proceeding in opposite directions have been indicated by official traffic control devices:
 - a. A left turn shall not be made from any other lane;
 - b. A vehicle shall not be driven in the lane except when preparing for or making a left turn from or into the roadway or when preparing for or making a U-turn when otherwise permitted by law; and
 - c. A vehicle shall not be driven in the lane for a distance more than five hundred (500) feet.

SECTION 325.020: AUTHORITY TO PLACE AND OBEDIENCE TO TURNING MARKERS

- A. The City Traffic Engineer is authorized to place markers, buttons or signs within or adjacent to intersections indicating the course to be traveled by vehicles turning at such intersections, and such course to be traveled as so indicated may conform to or be other than as prescribed by law or ordinance.
- B. When authorized markers, buttons or other indications are placed within an intersection indicating
[The next page is 453]

the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications.

[The next page is 453]

SECTION 325.030:

AUTHORITY TO PLACE RESTRICTED TURN SIGNS

The City Traffic Engineer is hereby authorized to determine those intersections at which drivers of vehicles shall not make a right, left or U-turn and shall place proper signs at such intersections. The making of such turns may be prohibited between certain hours of any day and permitted at other hours, in which event the same shall be plainly indicated on the signs or they may be removed when such turns are permitted.

SECTION 325.040:

OBEDIENCE TO NO-TURN SIGNS

Whenever authorized signs are erected indicating that no right or left or U-turn is permitted, no driver of a vehicle shall disobey the directions of any such sign.

SECTION 325.050:

LIMITATIONS ON TURNING AROUND

The driver of any vehicle shall not turn such vehicle so as to proceed in the opposite direction upon any street in a business district and shall not upon any other street so turn a vehicle unless such movement can be made in safety and without interfering with other traffic.

CHAPTER 330: ONE-WAY STREETS AND

ALLEYS

SECTION 330.010: AUTHORITY TO SIGN ONE-WAY STREETS AND ALLEYS

Whenever any ordinance of the City designates any one-way street or alley, the City Traffic Engineer shall place and maintain signs giving notice thereof, and no such regulation shall be effective unless such signs are in place. Signs indicating the direction of lawful traffic movement shall be placed at every intersection where movement of traffic in the opposite direction is prohibited.

SECTION 330.020: ONE-WAY STREETS AND ALLEYS

Upon those streets and parts of streets and in those alleys described and designated by ordinance, vehicular traffic shall move only in the indicated direction when signs indicating the direction of traffic are erected and maintained at every intersection where movement in the opposite direction is prohibited.

SECTION 330.030: AUTHORITY TO RESTRICT DIRECTION OF MOVEMENT ON STREETS DURING CERTAIN PERIODS

- A. The City Traffic Engineer is hereby authorized to determine and designate streets, parts of streets or specific lanes thereon upon which vehicular traffic shall proceed in one (1) direction during one (1) period and the opposite direction during another period of the day and shall place and maintain appropriate markings, signs, barriers or other devices to give notice thereof. The City Traffic Engineer may erect signs temporarily designating lanes to be used by traffic moving in a particular direction, regardless of the centerline of the roadway.
- B. It shall be unlawful for any person to operate any vehicle in violation of such markings, signs, barriers or other devices so placed in accordance with this Section.

[The next page is 453]

CHAPTER 335: STOP AND YIELD

INTERSECTIONS

SECTION 335.010: THROUGH STREETS DESIGNATED

Those streets and parts of streets described by ordinances of the City are declared to be through streets for the purposes of Sections 335.010 to 335.080.

SECTION 335.020: SIGNS REQUIRED AT THROUGH STREETS

Whenever any ordinance of the City designates and describes a through street, it shall be the duty of the City Traffic Engineer to place and maintain a stop sign, or on the basis of an engineering and traffic investigation at any intersection a yield sign, on each and every street intersecting such through street unless traffic at any such intersection is controlled at all times by traffic control signals; provided however, that at the intersection of two (2) such through streets or at the intersection of a through street and a heavy traffic street not so designated, stop signs shall be erected at the approaches of either of said streets as may be determined by the City Traffic Engineer upon the basis of an engineering and traffic study.

SECTION 335.030: OTHER INTERSECTIONS WHERE STOP OR YIELD REQUIRED

The City Traffic Engineer is hereby authorized to determine and designate intersections where particular hazard exists upon other than through streets and to determine whether vehicles shall stop at one (1) or more entrances to any such intersection in which event he/she shall cause to be erected a stop sign at every such place where a stop is required, or whether vehicles shall yield the right-of-way to vehicles on a different street at such intersection as prescribed in Subsection (A) of Section 335.040 in which event he/she shall cause to be erected a yield sign at every place where obedience thereto is required.

SECTION 335.040: STOP AND YIELD SIGNS

- A. The driver of a vehicle approaching a yield sign if required for safety to stop shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway.
- B. Except when directed to proceed by a Police Officer or traffic control signal, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection.

SECTION 335.050: VEHICLE ENTERING STOP INTERSECTION

Except when directed to proceed by a Police Officer or traffic control signal, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop as required by Subsection (B) of Section 335.040 and after having stopped shall yield the right-of-way to any vehicle which

[The next page is 453]

has entered the intersection from another highway or which is approaching so closely on said highway as to constitute an immediate hazard during the time when such driver is moving across or within the intersection.

SECTION 335.060: VEHICLE ENTERING YIELD INTERSECTION

The driver of a vehicle approaching a yield sign shall in obedience to such sign slow down to a speed reasonable for the existing conditions and shall yield the right-of-way to any vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection; provided however, that if such a driver is involved in a collision with a vehicle in the intersection, after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of his/her failure to yield right-of-way.

SECTION 335.070: EMERGING FROM ALLEY, DRIVEWAY OR BUILDING

The driver of a vehicle within a business or residence district emerging from an alley, driveway or building shall stop such vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alleyway or driveway and shall yield the right-of-way to any pedestrian as may be necessary to avoid collision and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway.

SECTION 335.080: STOP WHEN TRAFFIC OBSTRUCTED

No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he/she is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic control signal indication to proceed.

CHAPTER 340: MISCELLANEOUS DRIVING

RULES

SECTION 340.010: FOLLOWING EMERGENCY VEHICLE PROHIBITED

The driver of any vehicle other than one on official business shall not follow any emergency vehicle traveling in response to an emergency call closer than five hundred (500) feet or drive into or park such vehicle within the block where fire apparatus has stopped in answer to a fire alarm.

SECTION 340.020: CROSSING FIRE HOSE

No vehicle shall be driven over any unprotected hose of a Fire Department when laid down on any street or private driveway to be used at any fire or alarm of fire without the consent of the Fire Department official in command.

A hearse or coach properly equipped may be a lead vehicle.

ORGANIZED FUNERAL PROCESSION: Two (2) or more vehicles accompanying the remains of a deceased person from a funeral establishment, church, synagogue or other place where a funeral service has taken place to a cemetery, crematory or other place of final disposition or a funeral establishment, church, synagogue or other place where additional funeral services will be performed if directed by a licensed funeral director from a licensed establishment.

B. *Driving Rules.*

1. Except as otherwise provided for in this Section, pedestrians and operators of all other vehicles shall yield the right-of-way to any vehicle which is a part of an organized funeral procession.
 2. Notwithstanding any traffic control device or right-of-way provision prescribed by State or local law, when the funeral lead vehicle in an organized funeral procession lawfully enters an intersection, all vehicles in the procession shall follow the lead vehicle through the intersection. The operator of each vehicle in the procession shall exercise the highest degree of care toward any other vehicle or pedestrian on the roadway.
 3. An organized funeral procession shall have the right-of-way at all intersections regardless of any traffic control device at such intersections, except that operators of vehicles in an organized funeral procession shall yield the right-of-way to any approaching emergency vehicle pursuant
- [The next page is 453]

to the provisions of law or when directed to do so by a Law Enforcement Officer.

[The next page is 453]

the driver of a motor vehicle shall yield to any bicycle in the lane. As used in this Section, the term "*designated bicycle lane*" shall mean a portion of the roadway or highway that has been designated by the Governing Body having jurisdiction over such roadway or highway by striping with signing or striping with pavement markings for the preferential or exclusive use of bicycles.

 3. Utility vehicles operated by handicapped persons for short distances occasionally only on the State's secondary roads when operated between the hours of sunrise and sunset;

4. The City may issue special permits for utility vehicles to be used on highways within the City

limits by licensed drivers. Fees of fifteen dollars (\$15.00) may be collected and retained by the City for such permits.

- B. No person shall operate a utility vehicle within any stream or river in this City or State, except that utility vehicles may be operated within waterways which flow within the boundaries of land which a utility vehicle operator owns, or for agricultural purposes within the boundaries of land which a utility vehicle operator owns or has permission to be upon, or for the purpose of fording such stream or river of this City or State at such road crossings as are customary or part of the highway system. All Law Enforcement Officials shall enforce the provisions of this Subsection within the geographic area of their jurisdiction.
- C. A person operating a utility vehicle on a highway pursuant to an exception covered in this Section shall have a valid operator's or chauffeur's license, except that a handicapped person operating such vehicle under Subparagraph (3) of Subsection (A) of this Section shall not be required to have passed an examination for the operation of a motorcycle, and the vehicle shall be operated at speeds of less than forty-five (45) miles per hour.
- D. No persons shall operate a utility vehicle:
 - 1. In any careless way so as to endanger the person or property of another; or

- F. A violation of this Section shall be an ordinance violation.

SECTION 340.120: RIDING BICYCLES, SLEDS, ROLLER SKATES BY ATTACHING TO ANOTHER VEHICLE PROHIBITED—PULLING A RIDER BEHIND VEHICLE PROHIBITED

No person riding upon any bicycle, motorized bicycle, coaster, roller skates, sled or toy vehicle shall attach the same or himself/herself to any vehicle upon a roadway. Neither shall the driver of a vehicle knowingly pull a rider behind a vehicle.

SECTION 340.130: CONTROLLED ACCESS

No person shall drive a vehicle onto or from any controlled access roadway except at such entrances and exits as are established by public authority.

SECTION 340.140: DRIVING THROUGH SAFETY ZONE PROHIBITED

No vehicle shall at any time be driven through or within a safety zone.

[The next page is 453]

SECTION 340.150: MANNER OF OPERATION OF MOTOR VEHICLES—CAREFUL AND PRUDENT

Every person operating a motor vehicle on the highways of this City shall drive the vehicle in a careful and prudent manner and at a rate of speed so as not to endanger the property of another or the life or limb of any person and shall exercise the highest degree of care.

SECTION 340.160: DRIVING TO THE RIGHT

- A. Upon all public roads or highways of sufficient width, a vehicle shall be driven upon the right-half of the roadway, except as follows:
1. When overtaking and passing another vehicle proceeding in the same direction pursuant to the rules governing such movement;
 2. When placing a vehicle in position for and when such vehicle is lawfully making a left turn in compliance with the provisions of this Title;
 3. When the right-half of a roadway is closed to traffic while under construction or repair; or
 4. Upon a roadway designated by local ordinance as a one-way street and marked or signed for one-way traffic.
- B. It is unlawful to drive any vehicle upon any highway or road which has been divided into two (2) or more roadways by means of a physical barrier or by means of a dividing section or delineated by curbs, lines or other markings on the roadway except to the right of such barrier or dividing section or to make any left turn or semi-circular or U-turn on any such divided highway, except at an intersection or interchange or at any signed location designated by the State Highways and Transportation Commission or the Department of Transportation. The provisions of this Subsection shall not apply to emergency vehicles, law enforcement vehicles or to vehicles owned by the Commission or the Department.
- C. Whenever any roadway has been divided into three (3) or more clearly marked lanes for traffic, the following rules in addition to all other consistent herewith shall apply:
1. A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.
 2. Upon a roadway which is divided into three (3) lanes, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle where the roadway ahead is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is signposted to give notice of such allocation.
 3. Upon all highways any vehicle proceeding at less than the normal speed of traffic thereon shall be driven in the right-hand lane for traffic or as close as practicable to the right-hand edge or

curb, except as otherwise provided in Sections 304.014 to 304.026, RSMo.

[The next page is 453]

4. Official signs may be erected by the State Highways and Transportation Commission or the Highway Patrol may place temporary signs directing slow-moving traffic to use a designated lane or allocating specified lanes to traffic moving in the same direction and drivers of vehicles shall obey the directions of every such sign.
 5. Drivers of vehicles proceeding in opposite directions shall pass each other to the right and, except when a roadway has been divided into traffic lanes, each driver shall give to the other at least one-half ($\frac{1}{2}$) of the main traveled portion of the roadway whenever possible.
- D. All vehicles in motion upon a highway having two (2) or more lanes of traffic proceeding in the same direction shall be driven in the right-hand lane except when overtaking and passing another vehicle or when preparing to make a proper left turn or when otherwise directed by traffic markings, signs or signals.
- E. All trucks registered for a gross weight of more than forty-eight thousand (48,000) pounds shall not be driven in the far left-hand lane upon all interstate highways, freeways or expressways within urbanized areas of the State having three (3) or more lanes of traffic proceeding in the same direction. This restriction shall not apply when:
1. It is necessary for the operator of the truck to follow traffic control devices that direct use of a lane other than the right lane; or
 2. The right-half of a roadway is closed to traffic while under construction or repair.
- F. As used in Subsection (E) of this Section, "*truck*" means any vehicle, machine, tractor, trailer or semi-trailer, or any combination thereof, propelled or drawn by mechanical power and designed for or used in the transportation of property upon the highways. The term "*truck*" also includes a commercial motor vehicle as defined in Section 300.010 of this Title.

SECTION 340.170:**PASSING REGULATIONS**

- A. The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to the limitations and exceptions hereinafter stated:
1. The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle; and
 2. Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle and shall not increase the speed of such driver's vehicle until completely passed by the overtaking vehicle.
- B. The driver of a motor vehicle may overtake and pass to the right of another vehicle only under the following conditions:
1. When the vehicle overtaken is making or about to make a left turn;
 2. Upon a City street with unobstructed pavement of sufficient width for two (2) or more lanes of vehicles in each direction; or
- [The next page is 453]

[The next page is 453]

3. Upon a one-way street.

The driver of a motor vehicle may overtake and pass another vehicle upon the right only under the foregoing conditions when such movement may be made in safety. In no event shall such movement be made by driving off the paved or main traveled portion of the roadway. The provisions of this Subsection shall not relieve the driver of a slow-moving vehicle from the duty to drive as closely as practicable to the right-hand edge of the roadway.

- C. Except when a roadway has been divided into three (3) traffic lanes, no vehicle shall be driven to the left side of the centerline of a highway or public road in overtaking and passing another vehicle proceeding in the same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken.
- D. No vehicle shall at any time be driven to the left side of the roadway under the following conditions:
 1. When approaching the crest of a grade or upon a curve of the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction.
 2. When the view is obstructed upon approaching within one hundred (100) feet of any bridge, viaduct, tunnel or when approaching within one hundred (100) feet of or at any intersection.

SECTION 340.180:**HAND AND MECHANICAL SIGNALS**

No person shall stop or suddenly decrease the speed of or turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety and then only after the giving of an appropriate signal in the manner provided herein.

1. An operator or driver when stopping, or when checking the speed of the operator's vehicle if the movement of other vehicles may reasonably be affected by such checking of speed, shall extend such operator's arm at an angle below horizontal so that the same may be seen in the rear of the vehicle.
 2. An operator or driver intending to turn the vehicle to the right shall extend such operator's arm at an angle above horizontal so that the same may be seen in front of and in the rear of the vehicle and shall slow down and approach the intersecting highway as near as practicable to the right side of the highway along which such operator is proceeding before turning.
 3. An operator or driver intending to turn the vehicle to the left shall extend such operator's arm in a horizontal position so that the same may be seen in the rear of the vehicle and shall slow down and approach the intersecting highway so that the left side of the vehicle shall be as near as practicable to the centerline of the highway along which the operator is proceeding before turning.
 4. The signals herein required shall be given either by means of the hand and arm or by a signal light or signal device in good mechanical condition of a type approved by the State
- [The next page is 453]

Highway Patrol; however, when a vehicle is so constructed or loaded that a hand and arm signal would

not be visible both to the front and rear of such vehicle, then such signals shall be given by such light or device. A vehicle shall be considered as so constructed or loaded that a hand and arm signal would not be visible both to the front and rear when the distance from the center of the top of the steering post to the left outside limit of the body, cab or load exceeds twenty-four (24) inches, or when the distance from the center of the top of the steering post to the rear limit of the body or load thereon exceeds fourteen (14) feet, which limit of fourteen (14) feet shall apply to single vehicles or combinations of vehicles. The provisions of this Subsection shall not apply to any trailer which does not interfere with a clear view of the hand signals of the operator or of the signaling device upon the vehicle pulling such trailer; provided further, that the provisions of this Section as far as mechanical devices on vehicles so constructed that a hand and arm signal would not be visible both to the front and rear of such vehicle as above provided shall only be applicable to new vehicles registered within this State after the first (1st) day of January, 1954.

SECTION 340.190:**STOPPING FOR SCHOOL BUS**

- A. The driver of a vehicle upon a highway upon meeting or overtaking from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging any school children and whose driver has in the manner prescribed by law given the signal to stop shall stop the vehicle before reaching such school bus and shall not proceed until such school bus resumes motion or until signaled by its driver to proceed.
- B. Every bus used for the transportation of school children shall bear upon the front and rear thereon a plainly visible sign containing the words "*School Bus*" in letters not less than eight (8) inches in height. Each bus shall have lettered on the rear in plain and distinct type the following: "*State Law: Stop While Bus is Loading and Unloading*". Each school bus subject to the provisions of Sections 304.050 to 304.070, RSMo., shall be equipped with a mechanical and electrical signaling device approved by the State Board of Education which will display a signal plainly visible from the front and rear and indicating intention to stop.
- C. Every school bus operated to transport students in the public school system which has a gross vehicle weight rating of more than ten thousand (10,000) pounds, which has the engine mounted entirely in front of the windshield and the entrance door behind the front wheels, and which is used for the transportation of school children shall be equipped with a crossing control arm. The crossing control arm, when activated, shall extend a minimum of five (5) feet six (6) inches from the face of the front bumper. The crossing control arm shall be attached on the right side of the front bumper and shall be activated by the same controls which activate the mechanical and electrical signaling devices described in Subsection (B) of this Section. This Subsection may be cited as "Jessica's Law" in commemoration of Jessica Leicht and all other Missouri school children who have been injured or killed during the operation of a school bus.
- D. Except as otherwise provided in this Section, the driver of a school bus in the process of loading or unloading students upon a street or highway shall activate the mechanical and electrical signaling devices, in the manner prescribed by the State Board of Education, to communicate to drivers of other vehicles that students are loading or unloading. A public school district has the authority pursuant to Section 304.050, RSMo., to adopt a policy which provides that the driver of a school bus in the process of loading or unloading students upon a divided highway of four (4) or more lanes may pull off of the main roadway and load or unload students without activating the mechanical and electrical signaling devices in a manner which gives the signal for other drivers to stop and may use

[The next page is 453]

the amber signaling devices to alert motorists that the school bus is slowing to a stop; provided that the passengers are not required to cross any traffic lanes and also provided that the emergency flashing signal lights are activated in a manner which indicates that drivers should proceed with caution and, in such case, the driver of a vehicle may proceed past the school bus with due caution. No driver of a school bus shall take on or discharge passengers at any location upon a highway consisting of four (4) or more lanes of traffic, whether or not divided by a median or barrier, in such manner as to require the passengers to cross more than two (2) lanes of traffic; nor shall any passengers be taken on or discharged while the vehicle is upon the road or highway proper unless the vehicle so stopped is plainly visible for at least five hundred (500) feet in each direction to drivers of other vehicles in the case of a highway with no shoulder and a speed limit greater than sixty (60) miles per hour and at least three hundred (300) feet in each direction to drivers of other vehicles upon other highways, and on all highways, only for such time as is actually necessary to take on and discharge passengers.

- E. The driver of a vehicle upon a highway with separate roadways need not stop upon meeting or overtaking a school bus which is on a different roadway, which is proceeding in the opposite direction on a highway containing four (4) or more lanes of traffic, or which is stopped in a loading zone constituting a part of, or adjacent to, a limited or controlled access highway at a point where pedestrians are not permitted to cross the roadway.

SECTION 340.200: RIGHT-OF-WAY AT INTERSECTION—SIGNS AT INTERSECTIONS

- A. The driver of a vehicle approaching an intersection shall yield the right-of-way to a vehicle which has entered the intersection from a different highway, provided however, there is no form of traffic control at such intersection.
- B. When two (2) vehicles enter an intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the driver of the vehicle on the right. This Subsection shall not apply to vehicles approaching each other from opposite directions when the driver of one (1) of such vehicles is attempting to or is making a left turn.
- C. The driver of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard.
- D. The driver of a vehicle intending to make a left turn into an alley, private road or driveway shall yield the right-of-way to any vehicle approaching from the opposite direction when the making of such left turn would create a traffic hazard.
- E. The City may, on any section of road where construction or major maintenance operations are being effected, fix a speed limit in such areas by posting of appropriate signs, and the operation of a motor vehicle in excess of such speed limit in the area so posted shall be deemed prima facie evidence of careless and imprudent driving and a violation of Section 340.150.

State Law Reference—This Section has additional penalties based on certain circumstances, §304.351, RSMo.

[The next page is 453]

SECTION 340.210:

DISTANCE AT WHICH VEHICLE MUST FOLLOW

The driver of a vehicle shall not follow another vehicle more closely than is reasonably safe and prudent, having due regard for the speed of such vehicle and the traffic upon and the condition of the roadway. Vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated, except in a funeral procession or in a duly authorized parade, so as to allow sufficient space between each such vehicle or combination of vehicles as to enable any other vehicle to overtake or pass such vehicles in safety. This Section shall in no manner affect Section 304.044, RSMo., relating to distance between trucks traveling on the highway.

- L. *Denial Or Revocation Of Parking Permit.* All permits shall remain the property of the City of Pasadena Hills. The City Clerk, after consultation with the Mayor, shall deny the issuance or renewal of a permit if the application is not complete, if the applicant has been fraudulent or untruthful with regard to the application or if the applicant has, in the past, caused or permitted any of the violations specified in this Section or is abusing the rights and privileges granted under this Section.

Upon ten (10) days' notice to the holder of a permit and an opportunity for hearing before the City Clerk, a parking permit may be revoked if it is determined that the applicant has been fraudulent or untruthful with regard to the application or if the applicant has caused or permitted any of the violations specified in this Section or is abusing the rights and privileges granted under this Section. The petition shall name the towing company among the defendants. The petition may also name the agency ordering the tow or the owner, lessee or agent of the real property from which the abandoned property was removed. The Missouri Director of Revenue shall not be a party to such petition but a copy of the petition shall be served on the Director of Revenue.

H. *Notice To Owner.* Notice as to the removal of any abandoned property pursuant to this Chapter shall be made in writing within five (5) working days to the registered owner and any lienholder of the fact of the removal, the grounds for the removal, and the place to which the property has been removed by either:

The towing company may dispose of such abandoned property by selling the property on a bill of sale as prescribed by the Director of Revenue to a scrap metal operator or licensed salvage dealer for destruction purposes only. The towing company shall

forward a copy of the bill of sale provided by the scrap metal operator or licensed salvage dealer to the Director of Revenue within two (2) weeks of the date of such sale. The towing company shall keep a record of each such vehicle sold for destruction for three (3) years that shall be available for inspection by law enforcement and authorized Department of Revenue officials. The record shall contain the year, make, identification number of the property, date of sale, and name of the purchasing scrap metal operator or licensed salvage dealer and copies of all notifications issued by the towing company as required in this Chapter.
